# EDWIN PROMISE

**Full-Stack Developer**

GitHub: https://github.com/Promzy004
LinkedIn: https://www.linkedin.com/in/edwin-promise-a73b822b6/
Location: Open to Remote, Hybrid, or Relocation

---

## PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on experience building real-world web applications across frontend and backend stacks. Strong foundation in modern JavaScript frameworks, state management, and backend development with Go and PHP/Laravel. Proven ability to collaborate with cross-functional teams, deliver client-facing products, and quickly adapt to new technologies. Passionate about writing clean, scalable code and continuously improving engineering skills.

---

## TECHNICAL SKILLS

- **Languages:** Go, TypeScript, JavaScript, PHP
- **Frontend:** React, Zustand, Context API, HTML, CSS
- **Backend:** Go (Gin), Laravel, REST APIs
- **Databases:** MySQL
- **CMS:** WordPress
- **Tools & Practices:** Git, API Integration, State Management, Responsive Design

---

## PROFESSIONAL EXPERIENCE

### Junior Developer

**Brainzcode Information Technologies** | October 2025 – Present

- Collaborate with development teams to build and maintain multiple web applications for clients.
- Develop frontend features using HTML, CSS, JavaScript, TypeScript, React, and Zustand.
- Build and customize client websites using WordPress based on business requirements.

- Implement a full-stack Todo application using **Go, MySQL, React, TypeScript, and Zustand** as part of backend upskilling.
- Contribute to code reviews and follow best practices for maintainable and scalable code.

### Frontend Developer Intern

**Brainzcode Information Technologies** | July 2025 – September 2025

- Collaborated with senior developers to build **Carbina AI**, a robust AI-powered application.
- Developed and maintained the entire frontend using **React, TypeScript, and Zustand**.
- Implemented responsive UI components and managed complex application state.
- Integrated frontend features with backend APIs and AI services.

---

# PROJECTS

### Carbina AI

- Multi-purpose AI application supporting image editing, voice cloning, chatbots, image fine-tuning, and lip syncing.
- Built the complete frontend using **React, TypeScript, and Zustand**.
- Focused on performance, scalability, and clean UI architecture.

### Todo Application (Full-Stack)

- Full-stack learning project to strengthen backend development with Go.
- Built with **Go (Gin), MySQL, React, TypeScript, and Zustand**.
- Implemented authentication, CRUD operations, and API-driven architecture.

### ProPulse (E-commerce Frontend)

- E-commerce web application developed as a frontend capstone project.
- Features include product listing, categorization, detailed product views, and cart functionality.
- Built using **React, JavaScript, and Context API**.

### Real Estate Application

- Full-stack real estate platform with property listings and details.
- Built using **React, JavaScript, Context API, Laravel, and MySQL**.

### Scarsdale Solicitor Website

- Client website developed during junior developer role.
- Built and customized using **WordPress** to meet professional legal branding needs.

### Freshly Folded

- Laundry service website built for a client.
- Implemented using **WordPress**, focusing on usability and clean design.

### Twist

- Frontend interview task completed within 3 days.
- Built using **HTML, CSS, and JavaScript** with emphasis on layout accuracy and interactivity.

---

# EDUCATION

### Backend Development Bootcamp

**New Horizons** | January 2025 – June 2025

### Frontend Development Bootcamp

**New Horizons** | May 2024 – September 2024

### Senior Secondary School Certificate (SSCE)

Completed: 2020

---

# AVAILABILITY

- Open to **Remote**, **Hybrid**, and **Relocation** opportunities
